Recommendation #3:Asarin in Nakaniida Karaku Koji(street)

Asarin is a popular store that everyone in Kami Town has been to at least once. This is a Japanese sweets store that sells handmade Japanese sweets that can only be found here.

Here are some particularly popular sweets.

Waffles are pastries that are baked on a griddle. There is cream in it. In addition to cream, you can also try other flavors, such as salad and strawberry, so you will never get bored and you can taste many kinds of food.

Shiratama (dumpling) is made of white balls with sweet bean paste or zunda on top. Zunda is a very famous sweet paste in Miyagi Prefecture. They have just the right sweetness and are delicious.

There are also a variety of other sweets on sale, such as cheese dogs, soft ice cream, and Taiyaki.

It is open from 9:00 a.m. to 5:00 p.m. except Wednesdays. The clerks are kind-hearted and helpful.

If you are interested in sweet foods and Japanese sweets, please stop by Asarin.

Recommendation #4:Ien in Nakaniida Karaku Koji(street)

There is a pottery store and a tea shop in Ien. The tea shop has been in business for over 400 years, so it is a long-established store. The pottery stores are filled with pottery from all over Japan. The main types of pottery include Mino, Arita, Shigaraki, and Bizen ware. Foreign visitors are rare, only two or three a year.

What foreigners usually buy are chopsticks and teapots. Chopsticks are one of the most popular souvenirs to buy in Japan. The round shape teapots are popular among foreigners as an ornament.

They also have an Instagram and online store, so you can buy their products online as well.

On Instagram, you can see many stylish photos updated by their daughter.
